GO PROFESSIONAL CASES UNVEILS DJI GLOBAL PHANTOM 3 CASES

*Leading drone case maker releases the nation's first DJI Phantom 3 Plus
Universal Case and Backpacks*

June 11, 2015 (SAN DIEGO) — [Go Professional Cases](#) (GPC), one of the nation's largest case designers for UAV systems, today announced the availability of its DJI Phantom 3 case series — the first-ever protective gear for [DJI Global](#)'s newly released commercial UAV. The announcement was made today by GPC Chief Marketing Officer (CMO) Beth Bulger.

“Innovation and design are at the core of our company,” said GPC CMO Beth Bulger. “We keep up with the ever-changing drone industry, creating products that UAV pilots need for work and play. We see the DJI Phantom 3 case and backpacks easily fitting into the toolbox of professionals across a variety of industries, allowing them to capture powerful images and video for creative and recreational use.”

The [DJI Phantom 3 Plus Universal Case](#) provides a hard exterior shell and custom foam, fitting the Phantom 1, 2, 2 Vision, 2 Vision+, and 3. It is designed with ample space to carry extended landing gear, multiple batteries, chargers and antennas. The Universal Case is available for \$249 USD.

Additional features include:

- Wheels and tote handle
- TSA-approved

(more)

- Patented “trigger release” locking latch system
- Gasket seal for watertight protection
- High-end SKB military spec case used by military and industrial leaders
- Ultra high-strength polypropylene copolymer resin
- Automatic ambient pressure equalization valve
- Molded-in hinges
- Stainless steel locking loop for lock(s)

The [DJI Phantom 3 Standard](#) and [Limited Edition Backpacks](#) house the DJI drone in a snug, custom foam experience similar to its hard-shell counterpart. Its rugged, water-resistant exterior allows pilots to traverse tough terrains easily and comfortably. The Standard Backpack is available for \$189 USD; shipping starts June 26. The Limited Edition Backpack is available for \$239; ship date coming soon.

Additional features include:

- High strength, water-repellant nylon
- Adjustable dual density closed-cell foam shoulder straps
- Cinching waist strap and dual compression straps
- 5.11 Rush 72 backpack used by military and industrial leaders (Limited Edition only)

Constructed with high-end military spec casing, GPC offers top quality protection for flight equipment and POV cameras. Each product utilizes the most advanced production technologies to ensure interior and exterior structures can resist the elements. GPC creates custom cases for other drone brands including [3D Robotics](#), [Yuneec](#), [Lumenier](#) (GetFPV), [Blade](#), [Immersion RC](#), and more.

“GPC will continue to find new ways to empower creators to achieve their vision like never before, and protect their drones while doing it,” said Bulger.
